

# Architecting for Tomorrow

a Pragmatic Perspective

Marcel Schutte - Groningen - 1 maart 2024

# Role of Architect

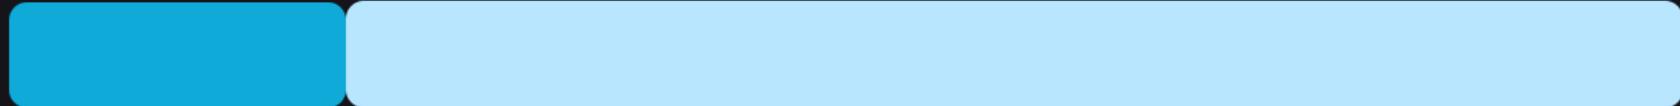

- No more ivory tower
- Connecting link

But that's not all...

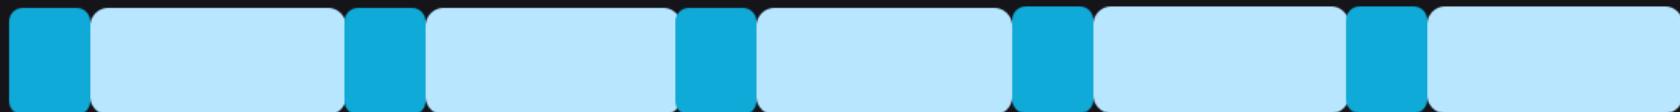

# Architectural Transformation

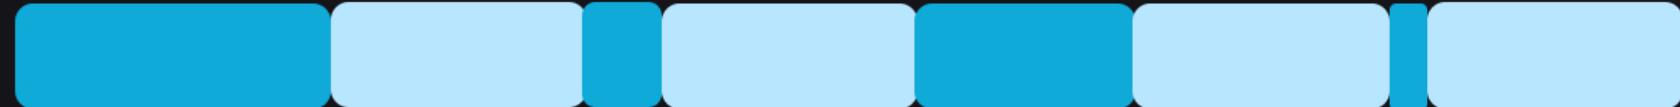

Big Design Up Front

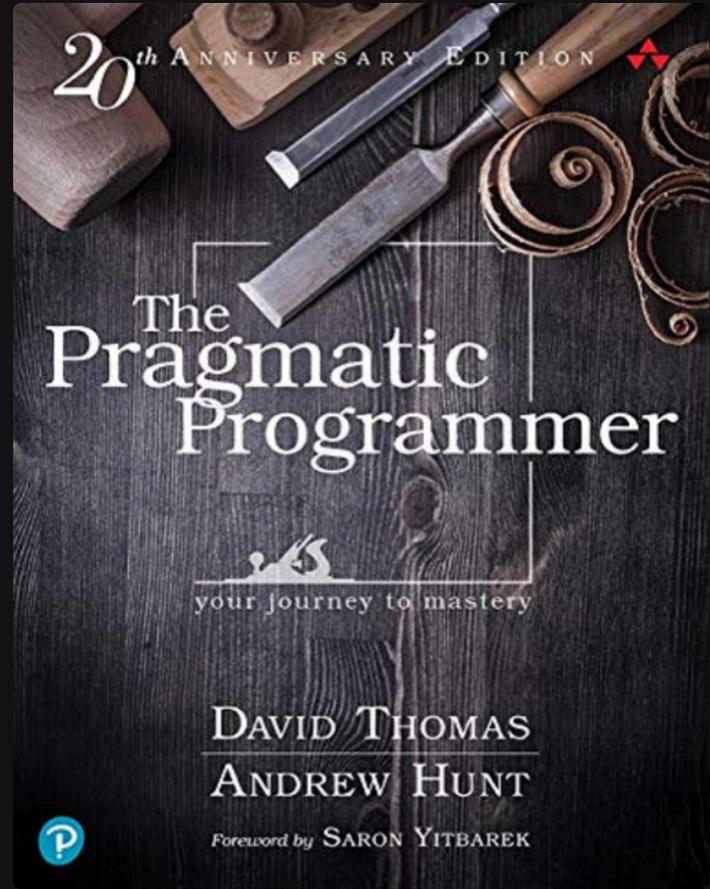

Just in Time Architecture

Just in Time / Just Enough Architecture

# Evolutionary Design

- Think big
- Start small
- Fail fast
- Fail often

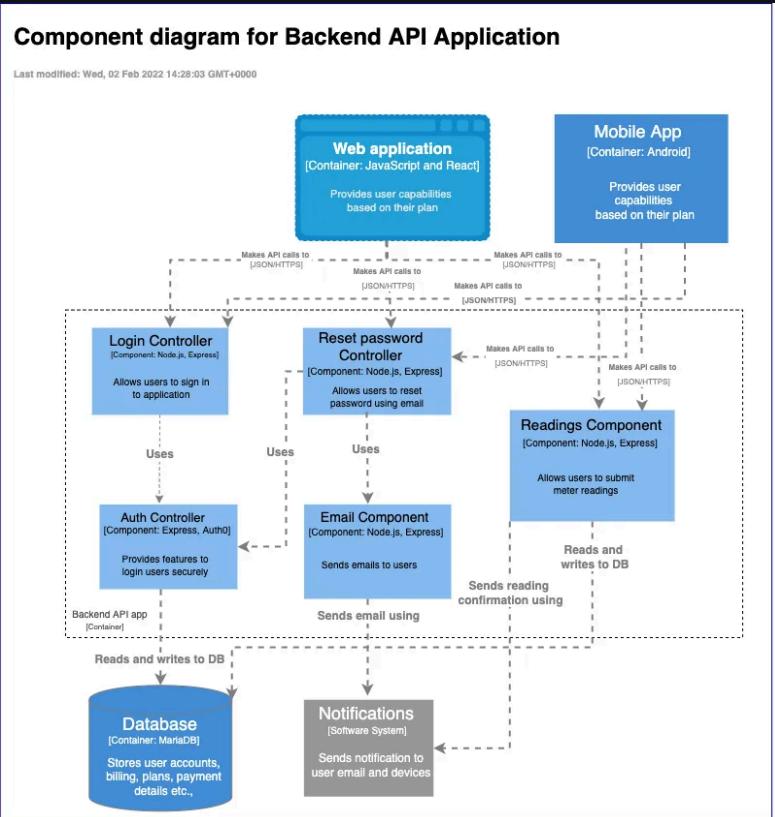

# Storytelling

- Communication is key
- on all levels
- a picture > 1000 words

## C4 Diagrams

- Abstraction layers
- Reusable
- High information density

# Asoh Defense

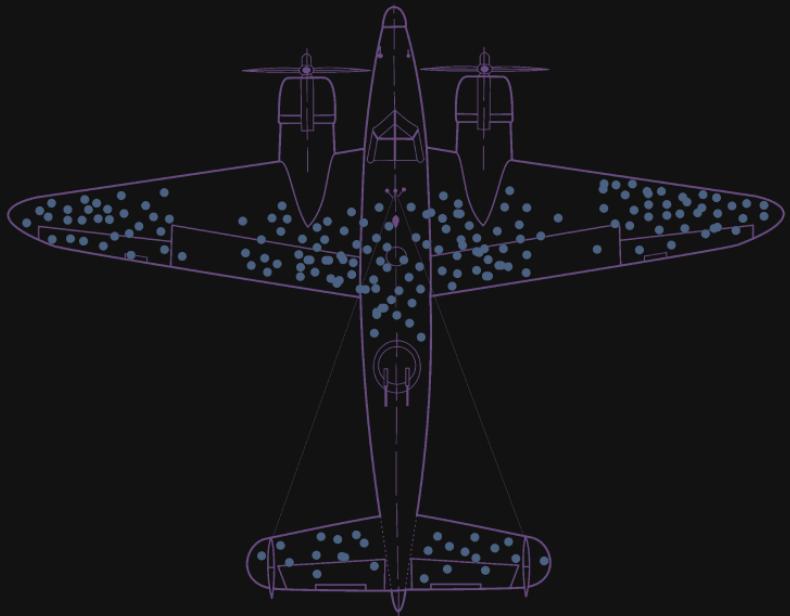

- Take responsibility
- Solve the problem
- Learn from your mistake
- Carry on!

KEEP  
CALM  
AND  
CARRY  
ON

# Survivorship Bias

- Do not focus on successes
- Also look at failures

# Elsa mindset

- Stress
- Problems
- Negative feedback

let it go!

Introducing:

# the Pragmatic Architect

# Thank you for your attention!
